

Stop The ODOUR!

COMMUNITY MEETING

“What YOU can do!”

You are invited to attend an Information Session to put your concerns and views forward regarding the impact this Odour is having on you and your family:

10am Sunday, 4 May, 2008
Leeming Bowling Club
Dimond Court, Leeming

(Turn over for MAP to Leeming Bowling Club)

YOUR ODOUR LOGS ARE MAKING A DIFFERENCE!

**Every Time You Detect The Odour REPORT IT!
Advise your neighbours and friends to do the same.**

Log The Odour Online.

Ensures that DEC, State Government MP's and Local Councillors are being notified in writing of your complaint - even the Premier receives a copy!

<http://www.cmcoag.com/odour-log.htm>

Please Phone the EMERGENCY POLLUTION RESPONSE Numbers Below...

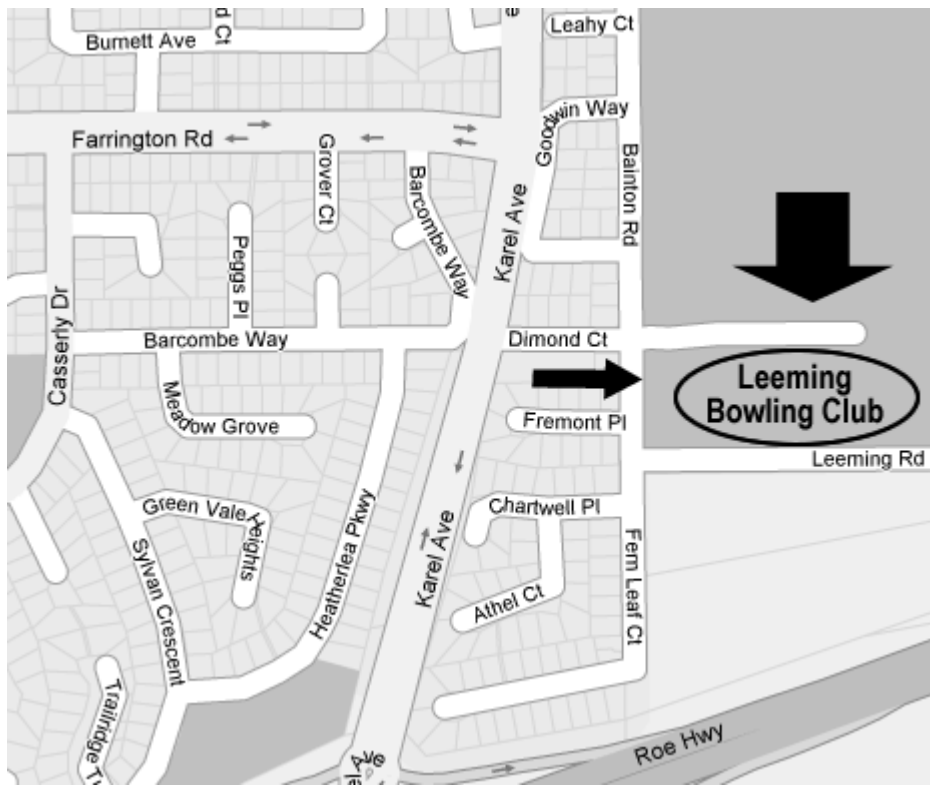

Day Time - 6364 6501

After Hours - 1300 784 782

If you're calling after hours please select "option 2". Leave your "Odour Report" message, along with your contact details, so the Dept of Environment and Conservation can record your Odour Log.

THE RESIDENTS WERE HERE FIRST!

What Residents Are Saying...

Leeming: We were in bed at home last night and had already closed all doors and windows due to the smell - whilst laying there in our bed all we could smell was the odour - This is just not right - enough is enough! Something must be done, this is making our lives hell! - We have suffered this now for years and it is just getting worse.

Willetton: It is become unbearable to go outside at various times during the day and evening when there is a breeze. At some stages I cannot even open windows in my house to allow fresh air to circulate throughout my home due to the stench coming through the open windows and doors. It puts us off our food when bbq-ing and is embarrassing when visitors come over and ask what is dying in your yard and then we have to explain to them about the waste facility.

Leeming: The effect this is having on our family lifestyle is immeasurable. We should be able to entertain freely outside but with the threat of that revolting odour. Along with the fact on any given night the smell can be so bad that we have to shut all doors and windows so the smell doesn't infiltrate our home.

Willetton: I am not someone who jumps on a bandwagon, or follows other people like sheep. I am a mother, of a child who is suffering with sore throats, and I personally cannot stand living here with this smell. I want someone to stop the odour it is ruining our family life!

Willetton: The odour continues to affect us as it invades our homes and it is like sitting in a tip site. Over the last three years I have lived in Leeming, Canning Vale and Willetton and I have smelt this odour in all these suburbs even after it was supposedly shut down and corrected. It clearly hasn't worked. We would like the site to be shut down and moved away from residents.

Leeming: Frightened for my children as this odour is constantly with us. I'm frightened for what it is doing to their bodies!

Leeming: This odour has become particularly offensive yet again in the last 7 days, of course we have had many experiences with this bad smell in the past from the Waste Composting Facility. The affect on our family is that this disgusting smell forces us to stay indoors and keep windows closed, our children do not want to play outside after school or on weekends when this odour is evident. It is also impossible to enjoy any outdoor entertaining with family or friends.
