

Has Caroline Dunsire seen the light, I doubt it, and twisting words around doesn't overwrite the fact that she continues to fight against the City of Canning at the expense of the suffering residents exposed to the RRRC WCF odour. If Ms Dunsire is in fact on the same page as the residents then she will be in total agreeance that the SMRC and RRRC are a financial and environmental failure, that the RRRC Waste Composting Facility is emitting a noxious odour affecting residents lives, which has been proven by DEC, and will support MP's Mike Nahan, Joe Francis and the long-suffering residents stance for the SMRC CEO Stuart McAll, SMRC Chairman Doug Thompson, along with the residents calling of Clive Robartson SMRC Deputy Chairman, to be stood down and investigated.
